

FOR IMMEDIATE RELEASE

MAY TRUCKING COMPANY 100 BEST

Oregon Business Magazine Names MTC One of Oregon's Best Employers

03/05/2010 - Portland, OR - In an awards ceremony on Thursday, March 4, May Trucking Company was named the number 22 company in the Large Company category of the **100 Best Companies to work for in Oregon** by *Oregon Business Magazine*. This is May Trucking Company's first ranking in the magazine, and a great honor to be recognized as one of Oregon's top companies.

At a gala event held at the Oregon Ballroom 100 companies throughout Oregon were honored for their companies commitment to employees, benefits, and sustainability. May Trucking Company was the highest ranked company with an Oregon employee base of over 450.

May Trucking Company was featured in Oregon Business Magazine article as the only company in the transportation industry to make the 100 Best list. Scott Smith, Vice President of Human Resources, says, "This is a great honor for May Trucking Company. Being recognized as one of Oregon's best companies is a nice acknowledgement of what we already know - May Trucking Company is a fantastic place to be."

Receiving a 100 Best ranking in a down economy is very significant accomplishment. While other companies in the transportation industry make major cuts to benefits and their employee base, May Trucking Company leadership continues to focus efforts on being one of the best.

The 100 Best Companies are determined through a series of evaluation tools, which are designed to be a valuable process that gives critical insight into a company's strengths and weaknesses. May Trucking Company's ranking is indicative of the commitment May Trucking Company places on the overall wellbeing of employees and a positive evaluation of May Trucking Company's business practices.
